## SUMMARY

Passionate Web Developer and SEO Specialist with hands on experience in building responsive, high performance websites and web applications. Skilled in frontend, backend, and SEO optimization using modern technologies including PHP, MySQL, and WordPress. Focused on clean code, user experience, and digital growth.

## FEATURED PROJECTS

### CodVion | Digital Agency Website codvion.site

- Developed a modern, responsive digital agency website to showcase services, portfolio, and client solutions with a smooth user experience across all devices.
- Implemented performance optimization and SEO friendly structure to improve search visibility, online branding, and overall website effectiveness.

### Deals & Coupon Site (WordPress) codespromoreduc.fr

- Developed and customized a WordPress based coupon platform for managing promo codes, discount deals, cashback offers, stores, and categories.
- Improved responsive design, user experience, on page SEO, and site structure to support smooth browsing, better search visibility, and organic growth.

### LearnPro LMS (Learning Management System) lplms.kesug.com

- Developed Learn Pro, a fully functional LMS platform with user authentication, course management, and role based access control for online learning.
- Implemented secure token-based login and a responsive, interactive UI to ensure session security and a smooth learning experience across all devices.
